FOREWORD

In days to come we hope that this book will grow in value. Many years from now, you will leaf through this 1955-56 annual and recall various experiences in high school. Many of them will be brought to life by the sight of an old friend's face.

We on the annual staff sincerely hope that the 1956 PRAIRIAN will help you relive your high school days, and that it will find you closer to your present friends, so they may not be forgotten later on.

We would like to thank all the faculty, students and friends who helped us to make this book possible.

Now we present to you, students and faculty of E. C. C. U. #2, your 1956 annual.

CLASS PROPHECY

As we blast off from the eight year old space satellite, Rear Admiral C.R. Fonner, commandant of the satellite and our host of the past few hours, waves farewell. This has been the first stop in a journey intended to take us past the present homes of the members of the Y.A. Class of '56. After landing in San Francisco, we proceed to the office of Ramona Johnson, editor of the international magazine, SCANDALL. She makes us comfortable in her luxurious office, and invites us to glance at the forthcoming edition of SCANDALL. On the cover of the magazine is a picture of Shirley Rund and the caption--"Beautician Reveals Intimate Secrets of Hollywood Stars!" Although Shirley is too pressed for time to grant us an interview, we are pleased to hear from Ramona that Shirley is well-known as the most prominent beautician in Hollywood. Leaving Ramona's office, we cross the street to the huge office building of the Royal Oil Co. where two more graduates of the Class of '56 operate as co-directors of the company. Leah Meehan, executive secretary of the company informs us that the two men, Dave Allison and Herman Weddle, are in conference and will not be able to see us today. She is able to tell us, however, that Dave has married Helen Julian of Hume and is now the company's business contractor, while Herman, still an eligible bachelor with an income exceeding \$1,000,000 a year, is director of the mechanics division. The morning is still young, but by the time we have flown to Chicago to make our next contacts it should be time for lunch. After lunch we drive to the University of Chicago where the eminent mathematician, Dr. Paul Preston, is scheduled to lecture. As the result of many achievements, including trisecting the angle, Dr. Preston, accompanied by Mrs. Preston, is touring the country and lecturing at the better schools. After the lecture and a delightful chat, we drive to Schiller Park, where in two magnificent homes live the Rayburns and the Schumachers. Mrs. Rayburn is the former Linda Shaffner and Anna Wood has married Warren Schumacher. The ladies are society hostesses entertaining nightly and are reputed to have the most lavish dinner parties in the Midwest. On our way to the airport, after having spent a pleasant half-hour with each lady, we pass a gigantic industrial plant which houses the Porter Feed and Grain Co. We are informed by the cab driver that John Porter is the owner of the multi-million dollar business. After a brief flight we arrive in Indianapolis on the eve of the immortal "500." At the stadium the next day we meet Mr. and Mrs. Howard Williams, who inform us that they are now retired, having leased the 10,000 acres of farm land that they own. They tell us that Sharon Weddle is to be the first woman driver in the "500" and that most racing experts say that she has an excellent chance to win. We stay long enough to see Sharon win every lap of the race. Once away from the stadium we purchase a newspaper wherein we read that after seven years of tireless effort, Grace Wright has succeeded in persuading all world powers to disarm. The three remaining members of the class are Paul DeAtley, Ted Cohen, and Dave Lang. We find that Paul is listed in WHO'S WHO IN AMERICA as one of the foremost mechanical engineers in the world. Paul did much of the work in designing the first interplanetary rocket ship. Dave resides in New York City where he is known as one of the greatest directors ever to work on the "Great White Way," having the unusual ability to direct any type of production. Ted has entered the field of medicine and at present is doing research work in laboratories throughout the country. Ted credits his first biology teacher, Mr. P.W. Holaday, with setting him on the track to his biological discoveries.

From what we have seen during this month of May, 1971, we may safely say that the old Y.A. Class of '56 has

BROCTON CLASS PROPHECY

Excerpt from the "Moon-News," dated February 29, 1976.

In the local Hi-Lites it was noted that Tom Brengle was holding a class reunion for the B. H. S. class of '56 on his Moon Meadows farm, made famous by his Hi-Bred Cattle.

Among those present were the crew of the "Satellite Sedan" rocket ship, Captain Merl Grove and Stewardess Marilyn Culver; those two comedians Don and Earl Jones; Nelson Arnold, present owner of the southern one third of Edgar county and the former Camellia Peddycoart and her husband. Camellia won last year's Mrs. America contest. Tom Addis, now manager of the Bismark (N. D.) Buffaloes, formerly Brooklyn Dodgers, was accompanied by another well-known athlete, ex pro-basketball player, Burnie Campbell, who is now back at Brocton as head coach. Patty Quick was there with autographed copies of her latest best seller, "Death Before Dying." Another author was also present, Sherod McCarty, who has just completed "Here Two Hundred Years," a history of the U. S. Max Salmon, owner of the Salmon Salmon Cannery in Victoria, Canada, brought a new type of canned salmon to the gathering. Bob Mattingly, star of his new TV show, "Mid-Morning with Mattingly," took a short vacation to be there. The three head men of Liffick, Boyer, and Kincade Consulting Engineers, Inc., put aside all work to be on hand. The owner of the 126 story Goodwin building in New York City, Jack Goodwin, was present with his private secretary, Donna Carroll. General Richard Dunn, now in charge of the U. S. Expeditionary force on the moon, came in his private moon mobile. Three other members of the Brocton Class of '56 came on the Satellite Sedan. They were Kitzi Ford, who married a Shaffer and brought with them one of their latest models; Sue Hickey, who married a wealthy man of the Sanders Company, and Virginia Merritt, who almost didn't make it due to some late business in the Senate. The other two members of the class '56, Rodney Wood and his wife, who was formerly Helen Powers, are editors and owners of the Moon-News. The group plans a two weeks' stay at Moon Meadows.

Now that we have reached the end of this, our attempt at summarizing this one year in our Long Long trail of education, we wish to thank our loyal and helpful advisors, who have given tirelessly of their time and effort to help make this annual a success. We also want to express gratitude to our photographers who have been so generous in the giving of their time and knowledge. The faculty, too, merits our thanks for their earnest cooperation and kind consideration. We want to express our thanks to all the people who have contributed to the publication of this annual and we wish to thank you, the student body, for the support and cooperation you have so willingly given us.
